	Termen în engleză	Termen în română
1	Bias	Deplasare
2	Gradient	gradient
3	Weight	pondere (in context IA)
	Noise	Zgomot
5	The mean loss	media costului
6	Loss function	Functie cost (loss)
7	The learning task	ce tb. Invatat / sarcina de invatat /
		taskul de invatat
8	Inductive principle	principiu inductiv
9	The Theory of Inductive Inference	teoria inferentei inductive
10	Real risk	Riscul real
11	Empirical risk	Riscul empiric
12	Bayesian decision principle	Principiul bayesian de decizie
13	Mean	Medie
14	The Bias-Variance Tradeoff	compromisul deplasare-dispersie
15	Intrinsic error	eroarea intrinseca
16	Over-fitting	supra-invatare
17	Penalization term	Termen de penalizare
18	Regularization term	Termen de regularizare
19	The erratic hypothesis	ipoteza variabila
20	Bagging methods	metode bag
21	Empirical confusion matrix	Matricea de confuzie empirica
22	Precision recall curve	precizia curbei recall
23	Confidence interval	interval de incredere
24	Cross validation	validare incrucisata
25	Classification hypotheses	Ipoteza de clasificare
26	Upper bounding the risk	marginind superior riscul
27	The criterion of success.	Criteriul de succes
	Performance index	Indicele de performanta
29	The protocol of learning	protocolul de invatare
30	Learning by membership queries	invatare prin interogare
31	The minimal disturbance principle	principiul perturbarii minime
32	The criterion function	functia criteriu
33	Error Backpropagation Learning Rule	Regula de invatare backprop
34	Feedforward neural net	retele feedforward
35	The incremental backprop	propagarea inapoi pas-cu-pas /
		backprop incremental
36	The weight space stochastic	spatiul stocastic de ponderi
